

About Spring City, Tennessee

We would like to welcome you to the Town of Spring City, Tennessee. We offer small town values with a big sense of adventure! Our community is surrounded by such natural beauty that we have four seasons of adventures. Not only are we The Home of Watts Bar Lake™, but we also have the Cumberland Trail in our back yard! We have several hiking opportunities that you can choose from. Spring City is part of the Tennessee RiverLine community. So, if you enjoy fishing, kayaking, boating, skiing, paddle boarding, and all other water sports, you have found the right place.

Spring City is rich in history and cultural activities. Starting with the historic Spring City Depot that houses our Spring City Historical Museum as well as the Spring City Chamber of Commerce. Our local community theatre, Tennessee Valley Theatre, offers musicals, plays, special events, and workshops for you to enjoy. Our downtown district offers a variety of restaurants to dine in and boutiques to shop in.

The town is in the second phase of our Cumberland Trail Connector project which, when completed, will connect our city park system together as well as have trails from Watts Bar Lake all the way to the Cumberland Trails. We are also developing a city-wide master plan that will outline plans to not only enhance our existing amenities but to also add more adventure opportunities.

Spring City is committed to serving you and everyone at the highest level possible. We look forward to having you visiting us soon!

Stephania Motes, City Manager
